

Christiane Casella

Award winning national artist Christiane Casella's classical figurative training is evident in all her work from bronze sculpture and drawing to the underlying structure in her abstract work. Whether linear, psychic or imagined, it is in the abstract realm where her works emotional content draws its breath. Whether literal or symbolic, a focus on the connection between beings shines through in her mastery of melding form with material. Casella's work is best described as maintaining a reverence for the classical while simultaneously embracing nuance and an outright fondness for modernity.
